Experiment 5:

Experiment 5:-

Aim:- To create a simple cloud software for creating a library book reservation system for SIMATS by using saas.

procedure:-

① register Zoho with Gmail

② create an Application from scrach & enter the Application name.

③ create a form & enter the form name

④ then, edit open form builder & drag the necessary fields needed.

⑤ The fields that are necessary are. Name, NO, Mail, RD, Date, No.g books, Book details, Authors, Duedate

⑥ fill the form & store the given data

⑦ Launch the Application for SIMATS Library Book reservation.

Result :-

Name	Email	phone	Date	Time	Book name
Santosh reddy	santosh @gmail.com	8990748311	29-Apr-2023	10:59	Blind oroxo
Anand kumar.	Anand meryadi@gmail.com	9121311571	29-Apr-2023	10:54	Harry potter.
